Abstract

The purpose of the study was to “evaluate athletics infrastructure facility and students participation of Higher Education Institute of Tripura.” The study was conducted on two hundred fifty (N=250) college students of Tripura. In this study self administration questionnaire were used. Percentage method was employed to analysis the data. From the finding, it revealed that all most, all the institutes were participated in senior state, senior national; inter college and inter-university competitions in Tripura. Adequate facilities were available in the colleges. But in the jumping event less numbers of students were participated.

KEYWORDS: Athletics, Infrastructure, Tripura

Tripura is a small wonderful state of North East India. Tripura Government has more emphasis on up lifting the game and sports. "Sports for all" strategy has embraced in State Government of Tripura. So, they had planned development of sports infrastructure for better performance. But one of the most important reasons is the poor sports infrastructure facility at the school and college levels in Tripura. The lack of infrastructure and facilities is a major negative factor in the improvement of sports culture in the colleges. For the purpose of the study was to evaluate Athletics Infrastructure facility and students participation of Higher Education Institute of Tripura.

Objectives

The objective of the study was to find out the Athletics Infrastructural and students participation status of Higher Education Institute of Tripura.

.Methodology

Subjects

For the purpose of the study two hundred fifty (N=250) students were randomly selected. The subjects belong to different colleges of Tripura State. Ten (10) students from each College were selected randomly.

Selection of questionnaire

The information was collected through questionnaire method. The data collected in quantitative form. The questionnaire was administered by the Researcher. The name of the questionnaire was "Athletics Infrastructural and student participation status of Higher Education institute in Tripura". It was a self-administered questionnaire. Proper instructions regarding the objectives of the study were given to all the participants. The questions/statement of these questionnaires arranged in order and stated clearly so that the students can answer those without any undue problem. The standard procedure will be adopted to construct the questionnaires.

Statistical technique for analysis data:

For the purpose of the study to check the Athletics infrastructure facility and participation of Higher Education Institute of Tripura, percentage method was employed.

Results

Findings pertaining to Questionnaire are subjected to analysis of Percentage analysis has been presented below.

Question	Percentage of Respondents (Yes) %	Percentage of Respondents (No) %
Does your institute participates in any games at sports level like senior state, senior national, inter college and inter-university competitions?	100	0
Does your institute have all the equipment related to standardized sprinting events like 100m,200m, 400m?	40	60
If yes, are the equipment being used optimally by the students?	32	68
Does your institute have all the equipment related to triple jump event?	16	84
If yes, are the equipment being used optimally by the students?	16	84
Does your institute have all the equipment related to standardized long jump event?	16	84
If yes, are the equipment being used optimally by the students?	16.4	83.6
Does your institute have all the equipment related to standardized high jump event?	12	88
If yes, are the equipment being used optimally by the students?	8	92
Does your institute has all the equipment related to standardized shot-put?	88	12
If yes, are the equipment being used optimally by the	64	36

students?		
Does your institute has all the equipment related to standardized Javelin throw?	84	16
If yes, are the equipment being used optimally by the students?	56	44
Does your institute has all the equipment related to standardized hammer throw?	8	92
If yes, are the equipment being used optimally by the students?	4	96
Does your institute has all the equipment related to standardized discuss throw?	84	16
If yes, are the equipment being used optimally by the students?	56	44
Does your institute has all the equipment related to standardized relay events like 4×100m relay, 4×400m relay?	56	44
If yes, are the equipment being used optimally by the students?	44	56

(Primary data, 2018)

Table showed the question was responded by the percentage of students.

Findings:

The study showed that the present Athletics infrastructure facility and students participation status of Higher Education Institute in Tripura. It was indicated that the 100% institute had participated in any games at sports level like senior state, senior national, inter college and inter-university competitions. But most of the students responded that they had less facility in triple jump, long jump, high jump and hammer throw event. So less numbers of students were participated this event. Again most of the students were participated in shot-put, Javelin throw, discuss throw, relay events because of adequate facilities were presented in the institute.

Conclusion:

On the basis of the discussion above following conclusions may be drawn;

1. Most of the institutes were participated in senior state, senior national; inter college and inter-university competitions in Tripura.
2. Less number of students was participated in jumping events because of less adequate facility available in higher institute of Tripura.
3. The adequate facility available in throwing and relay event in higher institute of Tripura.
