

## Forward

### Global Society for Basic and Applied Science (GSBAS)

The Global Society for Basic and Applied Science (GSBAS), Mumbai is a leading international society working on non-profit basis for sustainable development. It is a professional society engaged in diverse sectors to inspire, educate and inculcate scientific values among the people making Science for Society in true sense. It is led by eminent researchers, academicians, industrialist, scientists and economist in the field of science, engineering, management and humanity to upgrade excellent quality standard worldwide. The society has arisen with the vision 'science and technology for peace and prosperity' and its mission is inspire, educate and upgrade scientific values among people'. The society aims at inculcating scientific temperament among the people, facilitating education to the needy students, extending help to the educational institutes, conducting environment conservation activities, providing entrepreneurship, promoting business skills, rural-urban collaborations, organizing seminars, workshops and conferences to provide platform for the dissemination of the research work and gain learning experience.

Keeping our vision and mission in our mind we in collaboration with in collaboration with Ashwamedh Herbal Trust, Kopergaon, (MS) have successfully organized a free of cost seminar 'Feed and Fodder Management for Farmers' (Chara Parishad) on 29<sup>th</sup> May 2016 at Shirdi, Maharashtra, India. It has thrown light on the problems of farmers living in draught prone areas. More than 500 farmers participated in the same.

With the dream of 'Digital India' GSBAS initiated free of cost journey with '**Whatsapp International Conference**', at your place from 3<sup>rd</sup> to 6<sup>th</sup> July 2016 a new concept of bringing eminent scientists on one platform. It received huge response from 243 scientists, industrialists, farmers across the country.

The Global Science Congress is providing an interdisciplinary platform to all researchers for the promotion of their scientific ideas and skills to achieve constructive deliberations for the welfare of the society.

The Global Science Congress, Nepal chapter from May 17-21, 2017 is delighted to bind in Journal's special issue of the scientific paper presented at Global Science Congress: Emerging Trends in Basic and Applied Sciences 2017 that include versatile state of the art research outcome and developments.

We are glad to see the overwhelming response of the academicians, scientist, researchers, students and formers from government sector and nongovernment sectors from Nepal and India. Nepal is beautiful place to visit, so enjoy the cultural, spiritual and natural beauty of Nepal along with the distinct talk of scientist. We are sure that it will be impetus for budding scientists for their further research which makes this conference very remarkable.

We are very delighted to extend a warm welcome to you all in ETBAS -2017 and hope to come forward with many such activities which will serve to meet or vision and mission in true sense.

Welcome once again!
